Errors

There were no errors during the test.

Glossary

Throughput   Number of requests completed in a time interval.

Response Time   The time that passed to perform the request and receive full response.

| **Latency** | The time from sending the request, processing it on the server side, to the time the client received the first byte. |

About BlazeMeter

BlazeMeter offers a cross-enterprise test automation framework for the entire technical team throughout the product development lifecycle. Developers, DevOps, Ops and QA Engineers can run Continuous or "On Demand" testing for APIs, mobile apps and websites.
